

SEPTEMBER 2025

WISCONSIN ANTIQUE POWER R • E • U • N • I • O • N

P.O. BOX 651 CEDARBURG, WISCONSIN 53012

What has WAPR been up to this year?

Several Members helped to cut, bind and shock oats for a Threshing demonstration at Cedarburg Creek Pumpkin Farm in September.

The Club hosted a Farm tractor pull at the Ozaukee County Fair and several members were there to help with registration, and weigh in. Other members also pulled with their own tractors.

Teagen Herman, 2019 Scholarship Winner, was one of the pullers this year.

Cedarburg's Hometown Independence Day parade was again a popular event.

Many members participated in Classic Green Reunion in July at Washington County Fair Park.

From Larry Brushaber— I want to thank everyone who helped with the changeover of the running gear on the people movers. Special thanks to Steve Gettelman, my partner in this project.

The work crew included:

John Skadahl	Gary Brushaber
Dave Wagner	Lee Carter
Jerome Hanon	Ken Albinger

Thanks to Joe Schultz of Homer's towing for the use of their skid steer to lift the frame off the old running gear and drop onto the new ones.

If you get a job running McDonald's Farm, are you a C-I-E-I-O?

Why are John Deere tractors painted green? So they can hide in the weeds and wait for the red ones to drive by.

CLASSIC GREEN and BREAKFAST ON THE FARM

Thank you to the following people who gave of their time during Classic Green:

Tractors for pulling people movers (John Deere of Course)

Riders who kept the people in line on the wagons

Raffle ticket sellers

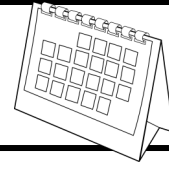

People mover drivers— especially those that managed to avoid getting hit by a UTV, golf cart, or walkers not sure where they were going.

Special thanks to Larry Brushaber for organizing the schedule for the people movers and riders for both Classic Green and Breakfast on the Farm-2 different events at the same place at the same time.

Van Brunt brothers invented the grain drill in the 1860's because of the high population of passenger pigeons in the Great Lakes area. Birds would eat broadcast seeds resulting in losses for the farmers. Drilling the seed into the coil prevented bird loss. Funny thing, it is still happening with Sandhill Cranes, and heron.

One gets a great sense of pride and tradition when holding the wheel that their grandfather, uncle and dad have held.

IMPORTANT DATES TO REMEMBER 2025
